ABOUT MAIET, JAIPUR

Maharishi Arvind Institute of Engineering & Technology, Jaipur, established in 1999, is the first private engineering college in Jaipur, located in the heart of the city. The campus also houses Maharishi Arvind Institute of Pharmacy a Four-Year B. Pharm & Two Year M. Pharm Programme, a Management Institute for a Two-Year MBA degree Programme.

Besides, it has established two more Engineering colleges at Kota namely, Maharishi Arvind International Institute of Technology and Maharishi Arvind College of Engineering & Technology and has introduced new Programmes such as M.Tech (Civil/ Thermal/ Design) and Diploma in Engineering.

ABOUT MECHANICAL DEPARTMENT

The department of Mechanical Engineering at Maharishi Arvind Institute of Engineering & Technology started in the academic year 1999-2000. It aims to cater the need of society for qualified Mechanical Engineers with high standard of technical expertise and moral ethics.

The First Batch of Mechanical Engineers Graduated in 2003. The Department of Mechanical Engineering is also running M. Tech. in Machine Design in the academic year 2011-12. Department has also been recognized as Research Center by RTU in the academic year 2017-18 for Ph. D. work in Machine Design & Industrial Engineering.

Department of Mechanical Engineering had successfully organized 4 National conferences in the previous years on Recent Trends in Mechanical Engineering (NCRTME-2014), Futuristic Approaches in Civil & Mechanical Engineering (FACME-2015), Energy And Sustainability in Engineering System (EASES-2016) and Beyond Automation & Poka-Yoke-2017 (NCBAPY-2017) in association with The Institution of Engineers (India). FACME-2015 & EASES-2016 conferences were supported by DST, Rajasthan.

CONFERENCE OBJECTIVE AND THEME

This conference will provide an excellent opportunity of learning of the advancement and enhancement of knowledge for Academicians, Research Scholars, Professional Engineers and Industrialist by exchange of ideas. It also aims to bring together professionals, academicians, researchers and industrialists to exchange and share their experiences and research results about various aspects of Mechanical, Manufacturing and Industrial Engineering. It also provides a premier interdisciplinary forum to present and discuss the most recent innovations, trends and concerns, practical challenges encountered and the solutions adopted in the field of Mechanical, Production and Industrial Engineering. The theme of the conference includes the following areas, but not limited to:

- Acoustics and Noise Control
- Advanced Energy Systems
- Automotive Systems
- Computational Techniques
- Energy Engineering and Management
- Engineering Systems Design and Analysis
- Fatigue and Fracture
- Fluid Dynamics
- Fluid Mechanics and Machinery
- Fluids Engineering
- Fracture
- Fuels and Combustion
- Heat and Mass Transfer
- Hydrodynamic/Hydrostatic /Gas Bearings
- Internal Combustion Engines
- Machinery and Machine Design
- Manufacturing and Production Processes
- Mechanical Power Engineering
- Mechatronics
- Micro and Nano Engineering
- Micro and Nanostructures
- Modeling and Simulation
- Multi Body Dynamics
- Naval Architecture and Engineering of Marine Systems
- New and Renewable Energy
- Noise and Vibration
- Optical Engineering
- Plasticity Mechanics
- Pollution and Environmental Engineering
- Precision Mechanics
- Precision Metrology
- Refrigeration and Air Conditioning
- Marine System Design
